

NCEA Level 3 Vagahau Niue Revised Vocabulary List 2025 Easy-print PDF version

Updated NCEA Level 1, Level 2, and Level 3 Vocabulary Lists for Pacific languages were published on the NCEA Education website in February and March 2025.

Below is the revised Level 3 Vagahau Niue Vocabulary List that should be used with students in 2025 (and thereafter).

The Vocabulary List supports teaching and learning and helps teachers understand the language appropriate at Curriculum Level 8. Language drawn from this Vocabulary List is used to create external assessments and may be used to support teachers when preparing students for internal assessments.

The vocabulary lists belong to the Ministry of Education. The list in this document has been **formatted by NZALT** to make it easier for teachers to print and photocopy for students. NZALT has provided two versions:

- 1. A PDF that can be printed and photocopied for students.
- 2. A Word document for teachers who would like to do further formatting.

This version of the vocabulary list is arranged alphabetically (Vagahau Niue to English).

Other configurations of this list (eg. English to Vagahau Niue; by category) can be downloaded here.

Alternatively, you can navigate to the revised vocabulary lists by following this pathway: ncea.education.govt.nz > New Zealand Curriculum > Learning Languages: Vagahau Niue > Teaching

Teachers are advised to read the Introduction to the vocabulary lists (downloadable online, as above), as these contain useful context for teaching and learning, and for internal and external assessments.
